Arubot Village Program Support Committee
Dandegaun Village Program Support Committee*

Fifteen more families in Arubot and Dandagaun villages have received toilets and waste systems in Stage 5 of the program, a total of 87 people.

There are now 54 toilet/waste systems in Arubot and Dandagaun: 36 septic and 18 biogas.

The houses in Stage 5 were spread across a large area, particularly from top to bottom of the steep hill where the villages are located. This created challenges for the local construction teams and the families themselves, who have to carry the materials to their houses and construction sites. Many thanks to them and the CHDS project team for managing these difficulties, and keeping up the smiles and thanks when the work was completed.

For more info visit <http://www.healthabitat.com/healthy-living-projects/nepal>

Once again to all the generous donors, the villagers offer great thanks.

NAMASTE AND LASO!
